Noritake Display Unit Opened At Lanka Ceramics

Posted on

Noritake’s new display unit

Noritake opened their latest display unit at the Lanka Ceramics showroom in Colpetty. The display unit caters to the hospitality industry as well as the corporate sector. The main purpose of the new display unit is to provide easier accessibility to clients. Thus, Noritake clients can choose and order the products that suit them best from the display unit instead of visiting the showrooms in Wattala, Pannala and Matale. The Noritake display unit in the first floor of Lanka Ceramics, features a range of new products in various shapes, colours and designs.
