Furniture and ornamentation displayed at the Interior Design Mall

The Interior Design Mall, which provides interior decor solutions under one roof, is a place where customers can find all the elements required to arrange and decorate interiors of homes, boutique hotels and villas. The mall is staffed by a well-trained

team, who can assist and advise customers on creating the look they desire.

The 6000 square foot mall is packed with tastefully designed furniture – fashioned out of fabric, cement, wood and wrought iron – gem studded pictures, handicrafts, oil paintings as well as fabrics for curtaining, bed linens, bed runners, cushion covers and more.

The concept for this mall was developed by Rushmi Sacquaff, Managing Director of the Interior Design Mall.
