

Airport Express Chauffeur Drive unveils new website

Posted on

Airport Express has announced the launch of its new website ae.lk. A key feature of the website includes the secure online payment gateway system, which is affiliated with one of Sri Lanka's top banks. Most of the major credit cards are accepted for payment. The website is user friendly, easy to navigate and introduces the customers to a variety of vehicles, ranging from standard to platinum, fulfilling most of the customer requirements.

The airport shuttle service focuses on transporting group passengers to or from the airport. The corporate package is an exclusive charter service where corporate employees and overseas clients are transported to and from the airport.

In addition to airport runs, short or long-term chauffeur driven vehicles are available for employee vehicle packages.

The private chauffeur driven vehicle can also be arranged for eight hours per day, at an all inclusive price, for sales personnel for day meetings or for shopaholics.
