American Premium staff hand over their donation to officials

When Cyclone Nilam caused extensive flooding in several parts of the island, flood relief operations were organised by American Premium Water Systems staff at Hanwella in November.

American Premium staff visited the Hanwella Pradeshiya Sabha and donated cases of one litre bottles of its “American” brand of drinking water to the Provincial Council for distribution to those affected.

The staff also visited the Mayadunne Central College at Hanwella together with representatives from the Disaster Management Center and the Provincial Council.
