

Barclays computers offering a portfolio of high class products

Posted on

Barclays Computers has been in the IT business for the past two decades. Thanks to innovative business practices and a solid marketing programme, Barclays can boast of a myriad of services including assembly and sales of computer products and accessories, providing technical services for IT products and logistics support.

Barclays now located in their own premises at 42, Galle road Colombo 4 has a large retail store at unity plaza and provides customers all over Sri Lanka with the best in quality personal computers under the brand name Megabox .

“Customers are always looking for the best value proposition when looking for IT products and Barclays computers is positioned to serve these customers needs,” said a spokesman for the company.

Barclays computers have strong affiliations with the world’s technology giants including Intel, Microsoft and HP, partnerships which ensure that ‘Barclays’ customers are always assured of the latest innovations and best technology.

After sales service is a key strength of the company and customers are assured of complete peace of mind when purchasing any product from their outlet. All service personnel are well trained and therefore customers can expect a totally satisfying experience when they have to get their products repaired. The services provided include repair of notebooks and PC’s, data recovery, PC maintenance, and virus guard installation. All services are provided at Barclays outlets or at RC customers’ site.

With over 80 staff who are well trained in the latest techniques, Barclays computers is committed to provide the best purchasing experience to customers. Some of the leading international brands represented by Barclays include A4 Tech, ADATA, Benq, J&W, vcom, Cooler Master, E-Box, Must-UPS & Megabox computer and accessories.
