BLINDS! to suit your mood

Posted on

Blinds are the latest trend in interior as well as exterior shading, and where better to spruce up your homestead with an assortment of blinds designs than at Light & Shade, a leader of the trade in the local market.

Words Dinali Sugathadasa

Automated roller sunscreen blinds to shade all windows in just a click of a switch, which comes with an option of the black out system for greater privacy, bamboo blinds for an earthier feel to your home, or a homely feel to your workplace, a brand new line of timber blinds for elegant sophistication or the vertical and Venetian blinds to smarten your everyday work place; Light & Shade offers all-purpose interior shading solutions.

For outdoor protection for your porch, balcony or verandah against all elements – rain, shine or stormy weather – their outdoor selection made of synthetic fibres withstand age and heat with no fading, and has been further enhanced by the brand new monsoon blind. The monsoon blind has the added feature of being transparent while being suspended by cables that keep it steady at times of gale and strong winds.
