The Marvel Canyon

Borderlands Sri Lanka opened Marvel Canyon for those looking to push boundaries through many activities in the gushing waters of Kithulgala. Canyoning is an eco-adventure sport, which involves exploring natural water cavities while navigating down the gorges by jumping into pools of water, sliding down rocks and wading across small potholes. Climbing ropes are used when it is too steep to jump or slide, and they are anchored to the rock for safety.

Experience is not a requirement as trained guides from Borderlands will work and assist each and every individual to impart the necessary skills to attempt the newly launched eco-tourism activity. These exciting canyoning adventures conducted by Borderlands are suited for all ages and it is up to the individual to select the level of challenge desired to be explored.
