Elevating haircare with luxury and style.

A premium salon experience awaits.

For many clients, a visit to TONI&GUY is more than a regular salon appointment — it

is a complete lifestyle and wellness experience. The internationally acclaimed brand has grown into a global hairdressing leader with over 450 salons across 38 countries. TONI&GUY Sri Lanka brought this world-renowned standard of hairdressing to Colombo in 2016.

The salon has established itself as a destination for premium haircare, grooming, and luxury hospitality while maintaining the professional standards associated with the global TONI&GUY brand. From the moment clients arrive, the salon focuses on delivering a refined and relaxing experience. Clients are offered hot or cold towels along with a curated beverage menu featuring cappuccinos, herbal drinks, and refreshments to help them unwind.

Every hair service begins with a signature hair wash ritual that includes shampooing, conditioning, and a relaxing scalp massage before styling. The salon uses professional, high-quality haircare products available in Sri Lanka while following techniques and service standards aligned with TONI&GUY's UK guidelines.

Since opening, TONI&GUY Sri Lanka has built a loyal client base, including both local and international customers. The salon is especially recognized for its warm hospitality, attention to detail, and consistently high level of service. While it caters to many VIP and high-profile clients, every guest receives the same personalized care and professional attention.
