

Calvin Klein Unveils Latest Watch And Jewellery Collection

ck enlace

Calvin Klein unveiled its latest watch and jewellery products, 'ck enlace', 'ck recess' and 'ck whisper'. The sensual and elegant 'ck enlace' watch reflects the craftsmanship and creativity of Calvin Klein watches. The intersecting design of this feminine watch evokes grace and sophistication and is offered in both small and medium size, each beautifully closed with a jewellery buckle. The intertwined bangle is available in polished stainless steel or PVD gold.

Combining the best of both worlds, 'ck recess' is inspired by modern architecture. The sleek, polished and brushed case, presented in stainless steel PVD gold or PVD black, emphasises the watch's clean-cut design. This gentlemen's watch comes with an integrated strap and deployment buckle, available in stylish black or brown leather.

A unique and lighthearted contemporary casualwear jewellery set, 'ck whisper' is characterised by its multiple layers inspired by nature and depth. The jewellery set comprises an open bangle, a ring and earrings available in polished silver-hued stainless steel. The open bangle features flat multiple bands, layered and intertwined together. The half moon earrings are composed of several overlapping, flat-layered bands, elegantly tapering at both ends.
