

Calvin Klein Unveils New Watch And Jewellery Designs

The ck Basic, The ck Graceful, The ck Hook

Calvin Klein unveiled its latest watch and jewellery products, ck City, ck Basic, ck Graceful, ck Hook and ck Enlace, all of which are available at W A De Silva.

Understated and elegant, ck City represents a discrete watch that celebrates the sophistication of minimalism, while making a sleek statement.

The ck Basic watch features a perfectly round polished stainless steel case proportioned to a solid band. Each black or brown leather, or metal bracelet is outfitted with a butterfly buckle.

Swirling and dainty, ck Graceful with its iterative circle-themed motif and geometrical construction reflects the design spirit of the 1970s. The polished stainless steel case frames a black or silver dial with a mineral glass or topped with three diamonds on the dial.

ck Hook is a sleek, strong bangle constructed of polished PVD light grey stainless steel. It is connected fluidly and finished with a clasp and engraved logo.

Sensual and chic, ck Enlace is a line of classic styles infused with a minimalist allure. The open bangle along with a sleek ring are presented with stainless steel earrings.
