ck selection watch

ck Calvin Klein unveiled its newest line of watch and jewellery products – ck empathic and ck selection. A relaxed yet sophisticated identity makes ck selection the ideal accessory for all circumstances.
The case is available in either polished stainless steel, yellow PVD gold or pink gold, and its classic oval shape creates a striking contrast with the slenderness of the

wristband. The bracelet features a dainty black or white leather cord strap tied in a subtle knot.

ck empathic is a feminine and voluptuous piece of jewellery. A teardrop pendant radiates on the end of its chain. The same graceful silhouette is adopted by the stud earrings, held by a simple curved loop. The more compact, soft shape of the ring, is available in sizes 5 to 9. The ring and closed bangle offered in sizes extra-small, small and medium, feature decreasing widths. Each piece in the ck empathic offering is available in polished or matte stainless steel, or in a two-tone version that combines polished stainless steel with black PVD, yellow gold or pink gold. The new range is availabe at W A De Silva showrooms.
