ck Window And Ck Domed From Calvin Klein

Posted on

The ck window

W A De Silva presents the ck window and ck domed jewellery from Calvin Klein.

ck window is inspired by modern architecture and streamlined proportions. Available for both men and women, it features a dial finished with sun brushed detailing and a stamped pattern. The stainless steel versions are available with a black or white stamped alligator strap, while the PVD gold is accompanied by a brown leather stamped alligator strap.

ck domed includes a sculpted set of jewellery inspired by spiritual architecture. Available in either all steel or steel with black glass, the polished surfaces allude to elaborately designed, vaulted ceilings. The ring, offered in sizes five to nine, narrows at the back for a more comfortable fit. A perfectly square pendant is fixed to a refined 800mm chain. Mimicking the square dome of the necklace, the earrings are marked by a peaked design and symmetry.
