

Destiny on the rise

Posted on

The Destiny Mall and Residency developed by Imperial Builders commenced construction in the first week of May on the 140 perch property at the corner of Sir Justice Akbar Mawatha and R A De Mel Mawatha, Colombo 2. Apartments in the development which is set to transform the area with the ultra modern luxury twin tower design is expected to be sold out by end of 2013; 44 percent of the apartments were sold within the space of five months from commencing the construction of the building. Imperial Builders see this as the outcome of the competitive pricing, location and thoughtful payment plans offering clients once in a lifetime opportunity to purchase affordable inner city luxury living.

Simultaneous to the development, the second stage of the relocation of the 118 families that

need to be moved to accommodate the development of the Destiny has also commenced. The first stage of the relocation project was completed in record time in April this year.
