Exciting broadband packages for all by Lanka Bell

Posted on

Lanka Bell introduced a variety of Broadband packages to suit the needs of all segments of Sri Lankan society.

The eight new tariff plans will give the consumer the choice of opting for their requirement while enjoying 24 hour uninterrupted connectivity.

Prasad Samarasinghe, Managing Director explained, “Lanka Bell believes that all citizens of this country should have an equal opportunity to select what is best for them. Our Light Swift package gives customers a 10GB volume capacity with a download speed of 1 Mbps at a rental of just Rs 500 per month which is easily the lowest data package in the market and suited to meet the needs of residential customers. Similarly, the Laser Platinum package is ideal for SME customers to obtain a 4 Mbps connection.
