

Harpo's Pizza launches handmade wood fired Pizzas at The Bayleaf

Harpo's Pizza launched handmade wood fired pizzas as part of its sixth year anniversary celebrations. Already offering 25 delicious flavours in three sizes it was timely to introduce this unique traditional concept of pizza making to the guests.

Wood fired pizza ovens make delicious and traditional Italian pizzas with the smoky flavour and crunchy toppings. The final product of the authentic thin crust pizza says it all.

There are many benefits of pizza made in a brick oven which cannot be duplicated. Higher cooking temperature, allows faster cooking time, better crust, unique smoky flavor, crispier toppings, healthier ingredients and better tasting pizza.
