Heritage Ahungalla and Heritage Tea Factory secured seven awards and a merit certificate out of ten recognitions for the service sector at the National Cleaner Production Awards 2010. Heritage Ahungalla and Heritage Tea Factory won gold and silver service sector awards respectively. Heritage Tea Factory received an award of Excellence for energy, water and material utilisation. Heritage Ahungalla claimed an award of Excellence for water and material utilisation and a merit certificate for energy utilisation.

Refan Razeen, General Manager, Jayantha Madanayake, Chief Engineer and Ravindra Kumara, Assistant Engineer / Environment Management Representative were part of the team that represented Heritage Ahungalla. The team from Heritage Tea Factory consisted of Roshanlal Perera, General Manager and Amila Gamage, Chief Engineer and Environment Management Representative (EMR).

These awards are presented to progressive companies and service organisations that have voluntarily adopted cleaner production as a tool for increasing productivity while, minimising waste and emissions at source rather than treating after it's generated.
