Hotel Topaz is tucked away at an altitude that offers a breathtaking view of the historic city of Kandy. It is a charming retreat sheathed in pristine nature that is disturbed only by the chirping calls of birds and thus, ensures that you relax in an environment of tranquility. Swaying blooms in myriad colours whisper greetings and a cool breeze fans across the property as you walk in. Amber hues perfectly fused with light tones fill the interior of the spacious lobby and enhance the elegant look of the hotel. A cozy coffee shop lies in the corner of the lobby where guests can enjoy a cup of tea or coffee with a delectable snack in a plush setting.

With 72 rooms, positioned across several levels, Hotel Topaz strives to create a

unique getaway for each guest. The first floor is the 'Water Lilly floor', which offers a range of comfortable twin-bed rooms. The corridors of this floor are furnished with little fish tanks on which a brightly lit tiny oil lamp is kept to add an ornamental charm and this feature extends to the tastefully decorated rooms. The cement wall finishes complement wooden touches and vibrant décor within spacious interiors. Each twin-room features modern amenities and has an en-suite bathroom with a chic marble bathtub.

Dine while enjoying stunning vistas at Sky Lounge

At the second and third levels are the Green floors where each Deluxe room affords a panoramic view of Kandy, Hantana and the Knuckles mountain range. Guests can either opt for a City or a Mountain View room. The emphasis on light is evident in all the rooms with large glass panels that offers striking views of the hill country. Among the six luxury suites, the opulent Presidential Suite also occupies the Green floor. In designing the suites, spaciousness is given ample consideration and vibrant shades set amidst timber tones convey a pleasant and relaxing impression.

Designed with dewy-eyed honeymooners in mind, the fourth level is a tribute to the lovers who desire the allure of Kandy. Dazzling red roses are the theme of this

floor and thus, aptly named the 'Rose floor'.
