Jetwing Yala – A jungle book of dreams

Posted on

Jetwing Hotels combined amazing luxury with awe-inspiring wildlife in their latest creation, Jetwing Yala. The Hotel opened its doors in the untamed and fascinating world of Sri Lanka’s most well known animal kingdom. The sheer biodiversity of the Yala National Park with its elephants, peacocks, leopards and crocodiles is best summed up in the words of the Lonely Planet, which refers to it as “The Jungle Book brought to glorious life”. It is amidst this rich tapestry of flora and fauna that Jetwing Yala has emerged, an ideal destination for those who want to leave behind the hectic pace of everyday life and indulge in the unspoiled natural beauty of the wilds.
