President Mahinda Rajapaksa launching the innovative Mobitel mCash Pension Disbursement Service. Ranjith G Rubasinghe, CEO – Mobitel and Kalhara Gamage, Head of Mobile Money are also in the picture

Mobitel launched a brand new facility for Pension Disbursements via its mCash service in partnership with the Pensions Department of Sri Lanka. The ceremonial launch, which was held under the auspices of President Mahinda Rajapaksa, unveiled the Pension Disbursement facility via the mCash service as an added benefit for retired government employees. Through this service pensioners can now receive their pension directly into their mCash account for greater convenience.

This new facility eliminates the need for mCash customers to travel to collect their

pension disbursement and allows the ease of having their pension credited directly onto their mobiles.

Licensed by the Central Bank of Sri Lanka, mCash allows Mobitel customers to maintain a mobile account and experience a whole new method of carrying out financial transactions. mCash customers are able to deposit, withdraw and transfer money, pay utility bills, insurance premiums and even pay for goods and services. Since its launch, mCash has garnered significant part of registered customers across the length and breadth of the country.
