

Mobitel Partners With T-Navi To “Keep You In The Know, While On The Go”

Posted on

Mobitel partnered up with T-Navi, to offer the latest traffic navigation solution to travellers in order to make their lives easier, less stressful, more productive, and fun while on the go.

The T-Navi solution is available in three formats, namely – as a Mobile Phone Application for Smartphones, a Personal Navigation Device (PND) to be fitted in motor vehicles and as a Software SD Card for 2DIN Devices.

The newly implemented features of the T-Navi system include; Route Guidance and Maps, Live Traffic Updates, Multilingual Voice Guidance, Auto Map Updates, Junctions View, Route According to time, 3D moving maps and also places of interest. All these useful features will make driving less stressful and safe.

The T-Navi Smartphone App works on the IOS (Apple OS), WM (Windows Mobile), Android and Symbian operating systems.
