A New Urban Experience Platform for Colombo

Sofia Colombo City Hotel Introduces “My Colombo By Sofia” — A New Urban Experience Platform for Colombo.

Sofia Colombo City Hotel announces the official launch of My Colombo By Sofia, a signature city-experience platform designed to redefine how guests explore, taste, and connect with Sri Lanka’s capital.

Sugath Illangakoon, General Manager, is the brainchild of the concept, which draws on the hotel’s strong city-centric identity and GSTC-aligned sustainable practices, positioning Sofia Colombo as a modern gateway to authentic Colombo living.

Colombo’s vibrant skyline and coastal beauty capture the spirit of My Colombo By Sofia, where culture, cuisine, and city life come together.

My Colombo By Sofia — Where the City becomes a Story

Colombo is not a city you simply visit. It is a city you feel — in its colors, its contradictions, its flavors, and its unstoppable rhythm.

My Colombo By Sofia, the signature cultural and culinary experience by Sofia Colombo City Hotel, captures this spirit and transforms it into a curated journey that celebrates the capital's identity with authenticity and pride.

A City Reimagined through its People

Every great city is defined by its people, and Colombo is no exception. From the fishermen pulling nets at dawn to the artists painting stories on street walls, from the spice merchants of Pettah to the baristas shaping the city's café culture — Colombo thrives on human energy.

A Culinary Tribute to Colombo's Flavors

Food is Colombo's most expressive language. The city speaks through kottu sizzling on iron plates, isso wade crisping by the seaside, and the unmistakable aroma of roasted spices drifting through narrow streets.

At My Colombo By Sofia, these flavors become a refined yet heartfelt culinary narrative. The menu blends tradition with modernity — a celebration of Sri Lankan heritage infused with global inspiration. Expect dishes that honor the classics while introducing creative twists that surprise and delight.
