

New amanté Lingerie Collection Embraces Summer

Posted on

amanté has announced the launch of its Spring/Summer 2014 collection. Showcasing unique prints in pastel hues, the fresh 'Summer Fusion' collection is said to play to the wearer's mood. As with every amanté collection, the most recent is designed to suit the varying needs of Asian women. The amanté Spring/Summer '14 collection, along with its exclusive sportswear, swimwear and sleepwear

collections, are available at Racecourse boutique as well as several leading clothing retailers.

Based on the international Spring/Summer 2014 colour-palette, amanté's Summer Fusion comprises four styles. Wineberry is used in a floral, watercolour print with the impressionist style where a low-rise brief is paired with a padded, sweetheart-neckline underwired bra. Petal Passion offers a subtly sensual look with a delicate, floral print. This padded, non-wire, full-cover bra coupled with low rise brief is available in cornflower and apricot colours. The Impulse style portrays an ultra-chic look in sandalwood adorned with a black floral placement print and contrasting black straps. Also available in powder blue and blush pink, this underwired demi bra and matching low rise brief exudes confidence. The Summer Stripes style embodies the essence of the season in fresh turquoise with Summerglow and Rose cloud with vanilla colourways on a simple stripe design. The cotton, underwired bra is padded and is teamed with a complementing low-rise brief.
