

New beginnings for Vision Care

Posted on

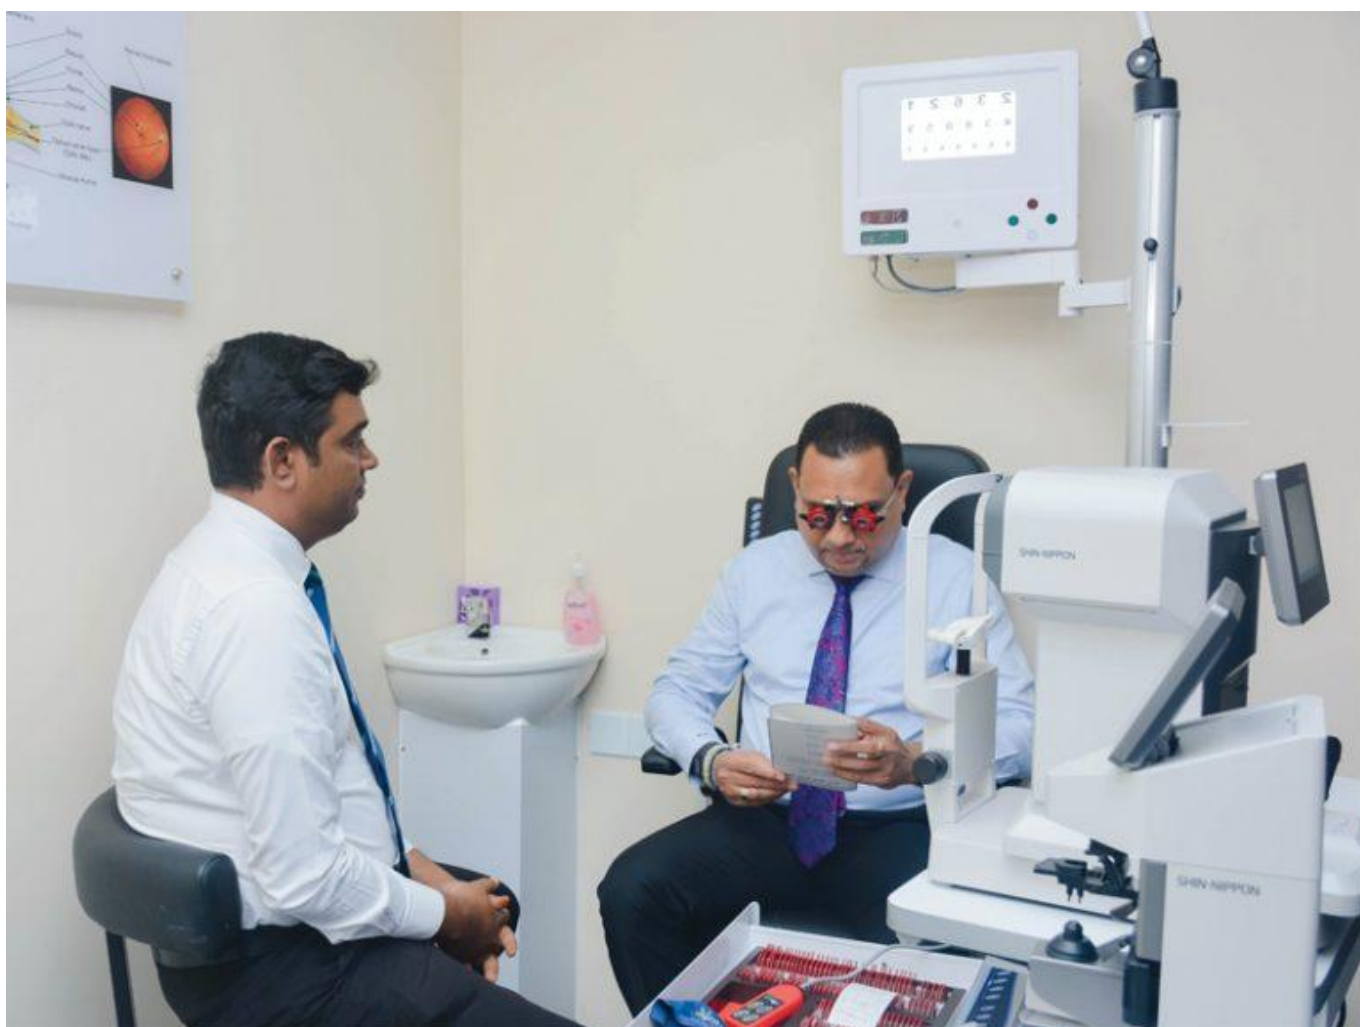

A wide range of eyewear at Vision Care's Anuradhapura outlet.

Vision Care launched its newly remodeled branch in Abhaya Place, Anuradhapura, offering better services backed by advanced technology in eye care. The market leader in eye care products, Vision Care has earned a reputation as one of the best eye care solutions providers in Sri Lanka. Vision Care also imports and distributes a range of branded and quality-based products on par with international standards to infuse an innovative and modernized approach to ensure that customers receive world-class eye care.

High precision contact lenses, optical and ophthalmic products are also available at the re-

opened Vision Care outlet. Fashion savvy shoppers can also select from a host of alluring frames and sunglasses featuring the world's top brands from the largest eyewear company in the world, Luxottica Group based in Milan.

Vision Care also proudly established its opening of a new branch at Medihelp Hospitals located on Galle Road in Idama, Moratuwa. The opening of the new outlet was presided over by officials from Vision Care and Medihelp Hospitals. A popular hospital for the residents of Moratuwa, Vision Care has entered into a strategic partnership with Medihelp Hospitals to enhance the hospital's eyecare offering. Vision Care is focused on expanding its optical services, with an intention to cover all major districts of the country.

Chathuranga Fernando, Head of Testing - Branch Network, Vision Care, takes the first eye test at the new Moratuwa outlet.

Both the Moratuwa and Anuradhapura outlets offer specialized services such as primary eye

examination, refraction, contact lens assessment, eye pressure diagnostics, laser treatments on appointments, hearing aids and all other related services.
