

New Designs From Calvin Klein

ck accent

W A de Silva presents ck accent and ck billow, the latest products from Calvin Klein. Inspired by the contrast between day and night, the ck accent is available for both men and women. The stainless steel style is offered with a cool grey or silver dial and the PVD gold case with a silver dial. Each watch is finished with a discrete ck logo at 12 o'clock and a dynamic movement with small seconds at 6 o'clock.

Inspired by modern architecture, the stylish new ck billow makes a bold statement. The bangle and ring are available in matte stainless steel and matte yellow gold PVD, and the concave shape at the top of each piece adds a sensual

touch. The bangle is equipped with a push button closing system for greater comfort. Both pieces have varying proportions that become thinner towards the bottom, enclosing the wrists or finger in a perfect cuff.
