

ODEL expands ladies' shoe collection

Posted on

Odel's new range of ladies' footwear

As the saying goes, shoes, not diamonds are a girl's best friend. And a visit to ODEL has become a must for girls with the popular department store recently expanding its range of ladies' footwear.

An extensive collection of flats, wedges, pumps and heels, in a spectrum of colours and a range of materials and textures imported exclusively for ODEL are now on the shelves of the company's store network. The international trends for Spring/Summer encompass 60s pointy heels, clear uppers, Lucite heels, ankle straps, zebra and snake prints, block heels, metallics and low heels. The new collection made available at ODEL reflect these trends.

ODEL expands ladies' shoe collection

Available in sizes ranging from 35 to 41, the collection has styles for casual wear, office and evening functions, with a mix of embellishments including stones and bows.
