

# Osu Kutiya – Fresh, Healthy and Compassionate Cuisine

Posted on

A tempting display of Wattaka curry, Watakolu Kebab and Polos Bola curry

**Otara Gunewardene and Chef Publis Silva present ‘Osu Kutiya’, a culinary programme that focuses on recipes for delicious vegan dishes, prepared using the freshest and nutritious ingredients from the island.**

**Words** Keshini de Silva

Fresh, nutritious and compassionate, the gastronomic journey by ‘Osu Kutiya’, is centred around these principles. Wellbeing begins in the kitchen, hence the programme has been named to reflect a transformation of the cooking space to promote healthy living. Presented by entrepreneur and thought leader, Otara

## Osu Kutiya – Fresh, Healthy and Compassionate Cuisine

Gunewardene together with Chef Publis Silva, an expert on traditional Sri Lankan cuisine, the programme has been inspired by the wholesome vegetables and fruits of the island and its culinary heritage.

The programme, in collaboration with Mount Lavinia Hotel, is founded on Otara's mission to promote compassionate and cruelty-free gastronomy, which also appreciates the essence of Sri Lankan cuisine.

Chef Publis and Otara Gunewardene carefully select the greens

“Osu Kutiya is a programme that combines all that is close to my heart. To make people understand the suffering that we and the entire food industry puts animals through for the sake of food. Once you witness this suffering, it is difficult to unsee it. That is why I decided to promote cruelty-free vegan dishes that you can enjoy as well as receive the required proteins and nutrition,” says Otara Gunewardene.

On a backdrop of lively music, the pilot episode of Osu Kutiya, takes viewers through the bustling Mount Lavinia Pola (fair), introducing them to the concept of compassionate cuisine. Chef Publis guides Otara and the audience through the island’s prized leafy greens, precious spices, nutritious vegetables and nourishing fruit. With jovial, informative remarks from Chef Publis, the emphasis of the programme is on obtaining field-fresh ingredients. The subsequent episodes have focused on the preparation of traditional, healthy and cruelty-free Sri Lankan dishes, using these fresh, nutritious ingredients. She explains, “Sri Lanka has so many good things to offer. The superfood being spoken about globally such as jak fruit (kos) and moringa (murunga), grow in home backyards in Sri Lanka. Our vegetables and greens have medicinal properties that could be used for various ailments. We should not lose our amazing culinary identity and must urge people to eat the freshest food.”

Sip a refreshing cup of Polpala Kanda

### **Polpala Kanda (Porridge)**

#### ***Ingredients***

Polpala 250g

Red rice 100g

Coconut milk 100ml

Garlic 50g

Water 300ml

Ginger 10g

Salt to taste

**Method**

Wash polpala, pluck the leaves and blend with 100ml water.

Squeeze and strain to separate the juice (Liquid One).

Use the residue from squeezing and blend with coconut milk.

Squeeze the mixture, strain and separate juice (Liquid Two).

Boil red rice with ginger.

Remove ginger piece and blend the boiled red rice.

Get a pan on fire and mix boiled rice with Liquid Two.

Add Liquid One and mix for a little while.

Add salt to taste.

### **Wattaka (Pumkin) Cury**
