The Parfumerie introduced another world renowned fragrance, Nina's Nina L'Eau, the new fragrance following up her widely acclaimed fragrance from the year 2006.

Romantic and subtle, fresh, fruity and aquatic, Nina L'Eau opens with refreshing notes of apple, grapefruit, mandarin and neroli. The heart includes watery accords along with gardenia and cherry adding a sensual, musky base.

The beautiful Frida Gustavsson is the embodiment of the newest Nina L'Eau and is portrayed in a pure silk, noble lace dress which took 15 designers 350 hours of work to complete. Nina L'Eau is available as 30ml, 50ml and 80ml Eau de Toilette, in soft pink frosted glass apple bottles.
