

Park hospitals introduces Membership Health Care Service

Posted on

(L-R): Dr.Sanjayadeve Munasinghe, MD, President/CEO – UN Consortium, Dr Chirantha de Silva, Executive Director and Founder of the programme and D Premalal, Chairman – Prime Lands and Prime Grameen (the first member)

For the first time in Sri Lanka, Park Hospitals has introduced an International Standard Disease Prevention Programme.

Once the membership of this programme is obtained, Park Hospitals will take the total responsibility of keeping you in good health guaranteeing a long life expectancy.

If you join as a Membership Health Manager while becoming a social worker you can earn some additional salary even by staying at home. If you are a doctor you can become a share

holder (Gold Member) of our hospital by registering with us. We have introduced this scheme to appreciate the outstanding service rendered by the doctors to the nation. Doctors can get excellent privileges through this scheme while helping Park Hospitals to safeguard the good health and long life expectancy of our members.
