Park Hospitals upgrade services

Posted on

Park Hospitals have refurbished and improved its services with the focus of enhancing the services offered to their patients. The list of upgraded facilities includes the pharmacy, laboratory, channel consultations, OPD and emergency treatment, eye and dental surgery, fertility and the immunisation clinics. Apart from medical services the Hospital is also maintaining a ‘Kids Corner’ for the convenience of the parents who visit. This area is equipped with hi-tech activities and cartoon shows.

Other new features that were introduced are the Fertility Clinic, Fertility Counselling, Fertility Investigations and IUI – Intra Uterine Insemination, which are all handled by senior consultants in obstetrics and gynecology.

The mobile service of the hospital has also been revamped and open to the public 24 hours a day. This includes emergency treatments by doctors and nurses, sample collection, delivery of pharmaceutical items to the customer’s doorstep in Colombo and suburbs. Transportation of patients to any part of Sri Lanka is also included to this facility.

The Hospital has also introduced a loyalty card with VIP facilities and discount schemes open for the public encouraging them to enroll as members.
