

Ramada Colombo with a modernised new look

Posted on

With the completion of the first phase of renovations, Ramada, Colombo presents its 94 modernised rooms with superior design features and the smartest room technology to give customers an unmatched experience in urban accommodation.

The new rooms feature superior levels of comfort with large beds, luxury linen, a separate seating area and are also coupled with elements of mood lighting and soothing tones of colour. A 42 inch LED TV, a work desk and chair and high speed wifi connectivity are more of the add ons. The bathroom features a bath tub and a separate shower cubicle fitted with

a rain shower and premium amenities.

IPTV facilities offering multimedia streaming and interactive guest information systems that drive ultimate guest experiences are at the core of its concept. Video on demand, web radio, ordering of services from in-room dining to a hotel cab and viewing your bill summary are just some of these features.

With the completion of the rooms, the hotel continues on its renovation encompassing all areas of the hotel from the lobby to restaurants and banqueting areas.
