Galaxy J6 with Infinity Display

Samsung Sri Lanka launched the Samsung Galaxy J6 in Sri Lanka, the first J series smartphone with Infinity Display and the new Chat Over Video feature.

The Samsung Galaxy J6 is the latest smartphone to join Samsung's 'J'line-up.

Speaking on the occasion, Shantha Fernando, General Manager and Head of Mobile Biz, Samsung Sri Lanka said, "The Samsung Galaxy J range of smartphones has empowered budget-conscious customers to enjoy features such as the Super AMOLED display and infinity screen which produces deeper contrasts and delivers the most vivid viewing experience. J6 is a true choice for millennials as it features chat over video, stickers, rear fingerprint scanner and clearer selfies. The Galaxy J6 ensures users can do more with their smartphones when it comes to expressing themselves".

The Galaxy J6 also includes a rear fingerprint scanner, so that the user can unlock it without having to wake it up first and a 3,000 mAH battery, which is built in along with a 1.6GHz Octa-Core processor, 3GB of RAM, 32GB of internal storage and a

micro-SD slot.

The Infinity Design on the Galaxy J6 gives users nearly 15 per cent more viewing space without increasing the overall size of the device. The super AMOLED screen produces sharper contrast and more dynamic colour.

The Galaxy J6 comes with two memory variants, 32GB with 3GB and 64GB with 4GB.
