‘Shape Wear’ slimming intimates by Aviraté

Posted on

Keeping the modern Sri Lankan woman and her needs in mind, Aviraté introduces innovative ‘shape wear’.

Unlike other shape wear which currently exist in the market, Aviraté shape wear uses a blend of materials that create a fabric that is comfortable and can be worn in a tropical country like Sri Lanka.

The goal of Shape Wear is to make the body more flattering. Shape Wear enhances and corrects certain features of the body to make the woman come across as confident and attractive, by letting her be more comfortable in her own body.

The colours and fabrics are designed to especially go well with dresses and western clothing by hiding the unflattering bulges and accentuating the right curves.

Aviraté Shape Wear is available in nude and black and can be purchased at all Aviraté Retail stores.
