The homepage of Spa Ceylon’s online store

Spa Ceylon Luxury Ayurveda has just launched their fully integrated advanced online store at www.spaceylon.com. Offering international spa connoisseurs more than 300 luxury product options for global delivery via express courier, this online store is Sri Lanka’s largest single-brand internet retailer. In addition to international delivery at reasonable rates, the store offers free delivery of all products, gift packs and gift certificates within Sri Lanka.

Their complete range of prestige skin, body, bath, scalp and hair care preparations, oils, balms and potions, home aroma blends, candles, handmade stoneware and spa accessories are now available for instant ordering via this online portal.

The online store will also feature the complete Spa Ceylon gift collection with over 100 assortments in a range of unique packaging options, including ebony hued gift boxes adorned with royal insignia from the Kandyan courts of ancient Ceylon. This adds an exotic island character to the gift collection, making them great gifts from Sri Lanka – ideal for both personal and corporate gift giving. Purchasers are also given the opportunity to add a personalised message that will be printed on to a gift card to be sent along with the gift pack.
