

Spa Ceylon luxury spa opened

Posted on

 Spa Ceylon Ayurveda brand has opened their first foot spa set in a 100 year old tea warehouse from old Ceylon – at Park Street Mews.

This new Spa Ceylon Foot Spa and Boutique offers a range of signature foot, hand and body treatment rituals. The spa design is inspired by old Ceylon.

Spa Ceylon products and treatments are formulated only with natural ingredients, including organic essential oils from the island, organically grown fresh aloe vera, therapeutically proven pure extra virgin coconut oil, mineral rich Indian Ocean salts and fabled Ceylon spices.

Spa Ceylon is a 'Destination Sri Lanka' brand combining traditional ayurveda, contemporary design and branding inspired by vintage Ceylon. The Spa Ceylon gift collection not only makes for gifts from Sri Lanka, but also a great way for visitors to take the essence of a relaxing holiday back home with them. The presentation style makes the Spa Ceylon gift collection ideal for corporate gifts too.

Spa Ceylon products are designed and manufactured in Sri Lanka with mostly Sri Lankan ingredients.

Spa Ceylon products and treatments are currently available in Switzerland, with dedicated Spa Ceylon Boutiques scheduled to open in France and Maldives later this year.
