Spa Ceylon recognized at World Spa Awards

Posted on

Spa Ceylon – the world's largest Ayurveda Wellness chain, was a major winner at the World Luxury Spa Awards 2019 in St Petersburg, Russia, bagging four international awards. Recognized for excellence in their field of specialty, the brand was once again awarded the 'Global Award for Best Luxury Ayurveda Spa'. Considering the group's international presence, they also won the 'Global Award for Best Luxury Spa Group'. The brand also won recognition for their chain of urban spas by way of the 'Continent Award for Best Urban Escape', while Shenuka Fernando, the Group's Head of Service Delivery was recognized with the 'Continent Award for Best Spa Manager'.

The World Luxury Spa Awards annual gala was held at St Petersburg’s State Hermitage Museum’s official hotel. These awards are acknowledged as the world’s foremost platform for recognizing excellence in the global spa industry, which spans 140 countries and sets the benchmarks in quality, innovation and service for spas around the globe. It is established as the world’s leading awards initiative for luxury spas.

Shiwantha Dias, Managing Director Spa Ceylon stated that winning these global awards in Russia was a major recognition for the brand. “It is specially significant as we are currently expanding our brand presence in major Russian cities and also have an extensive list of new store openings across Eastern Europe”.

Shalin Balasuriya, Co-founder and Director explained, “Being a multi-faceted brand with a unique Ayurveda approach to wellness, Spa Ceylon continues to work towards impacting people’s lives through not just our own retail presence and Spa offering but through strategic partnerships across industries as well. International Awards of this nature give us a platform to further expand such multi industry links globally and positively impact even more lives through the powerful science of Ayurveda”.
