The experience of a lifetime on ExpoAir

Posted on

Adrien and Yung being garlanded in Palaly Airport

ExpoAir played an important role in the lives of two people, Adrien Desbaillets from Switzerland and his Singaporean fiancée Ren Yung, when they arranged for Adrien to propose to her onboard one of their flights. ExpoAir organised every minute detail, with their flight EXV 713 taking off sharp on schedule from Ratmalana to

Palaly with just the two of them on board. Adrien, who owns and manages one of the most popular salad bars in Singapore, made his proposal 6,000 feet above sea level. They were garlanded on arrival at Palaly and spent their stay at Expo Margosa and Expo Pavilion – Chundikulli.

The couple expressed their joy and heartfelt gratitude for the experience. “It was brilliant from start to end and we were so impressed with the attention to detail, your professionalism, excellent service and discretion in keeping it a surprise, the lovely touches like the flower garlands, and most of all the incredible warmth and care. This will be a special moment told and retold forever, and many friends are already asking about ExpoAir’s wonderful services,” said Adrien.
