Leading luxury travel and transport provider, Transcend Drive exceeds expectations with their top-notch service. Previously Drumkin Transport, the company was established in the late 1990s. They have since then transformed their portfolio and extended their service to corporate travelers in addition to the discerning leisure travelers, and branded five-star hotels that seek a reliable travel partner for the day-to-day travel requirements of their in-house guests.

Transcend Drive owns a high-end fleet consisting of around 100 luxury European vehicles, all dedicated to provide a seamless and satisfying service. The fleet is complemented by a team of over 140 chauffeurs, trained and experienced, promising the best of service. Additionally, the chauffeurs can speak several languages, making the client feel comfortable during the journey.

All the vehicles are fitted with state-of-the-art GPS monitoring systems, that allows the client to be confident about their security at all times during their journey. Another advantage is that insurance is provided to any client who chooses the service, where the passenger and also the luggage are insured. Transcend Drive also manages travel itineraries for the client. They merely have to inform the company of their schedule, and the travel itinerary will be prepared to complement the client’s business schedule with the must-see destinations of the island.
