Trip Advisor Certificate Of Excellence For Maalu Maalu Resort And Spa, Passekudah

Posted on

Maalu Maalu Resort and Spa in Passekudah has been awarded the Trip Advisor Certificate of Excellence for the third time. The 40-room beach resort has been in operation for only that many number of years, since it was inaugurated in May 2011.

The award has really been an accomplishment for the close-knit team, as many of the staff, around 70 percent of them, are from the surrounding area, and have undergone many hardships in obtaining education and even in learning the English language.

“We are more than grateful for the recognition afforded to us by our guests, as the staff do their best to make this place a little piece of paradise, in their naturally warm and sincere way. Excellent service can be trained, but genuine kindness and attention can only come from a sincere desire to please,” said Chandra

Wickramasinghe, a veteran hotelier and Chairman – Maalu Maalu Resort and Spa.
