

Vogue Jewellers for Sparkling Diamonds

Posted on

Vogue Jewellers has announced its latest offering in the form of diamonds with varying carat size, clarity, cut and colour. Diamonds graded as best by the RAPAPORT diamond report that monitors the daily diamond prices in the world.

Vogue Jewellers offers the loose diamonds as an investment opportunity to the local market given that diamonds have consistently risen in value since 2011 and continues to appreciate. The diamonds are certified by GIA (Gemmological Institute of America), a recognised certification accepted in any part of the world. Diamonds at Vogue Jewellers are competitively priced and carry a laser inscription of the GIA certification engraved on the girdle of the diamond, which can be personally inspected by the customer.
