

W A De Silva Presents Calvin Klein Watch And Jewellery Collection

W A De Silva presents ck air and ck masculine watches, as well as ck island jewellery from Calvin Klein.

The streamlined styling of ck air creates the shape of a drop, and the thin, feminine bangle, available in polished stainless steel or polished PVD gold, makes the watch a timeless piece of jewellery. The polished stainless steel offers either a silver or black dial, while the polished PVD gold style has a silver dial. Offered in sizes small and medium, each watch is easily opened by a pusher on the bangle.

ck masculine is a contemporary timepiece with a vintage spirit. Offered with either a polished and brushed stainless steel bracelet or black or white leather strap, each watch features a distinctive glass case. ck masculine is available in both gent and chronograph styles, with a black, silver or white dial.

The ck island range of jewellery features a ring and a bangle. The ring has three sleek oval bands, each in a different metalised finish. The bands, available in sizes 5 to 9, are presented in polished stainless steel, pink gold PVD and yellow gold PVD. The closed bangle is available in extra small, small and medium, and is equipped with a push button closing system for comfort. Each of the three bands, in both the ring set and the bangle set, comes in a slightly different design and width, and can be worn individually, as a pair, or all three collectively.
