ck agile

ck spellbound: soft leather and hard metal create this seductively sleek jewellery set. Each of the three pieces are available in either black leather with polished stainless steel, or nude leather with yellow gold PVD or pink gold PVD. A bangle and ring complete the offering available in sizes 5 to 9. The black leather version of the ring is also sold in men's sizes 10 and 11, making it the only unisex piece of the set.

The ck agile bangle is composed of two delicately polished cables, outfitted with a closed buckle. A stainless steel or polished PVD gold case encloses the lines of the timepiece. The

PVD gold version is complemented by a silver dial, while the stainless steel version is paired with either a black or silver dial, available in small and medium.

The ck substantial is available in 42.00mm and is crowned with the ck Calvin Klein logo. Luminous hour and minute hands animate the piece as they fluidly revolve around a black or silver dial, surrounded by either a polished stainless steel or a PVD gold case. Designed without lugs to avoid a gap between the wrist and the case, the stamped alligator strap with butterfly buckle, in brown or black, securely fits all wrists for a clean look. Products are available at W A De Silva.
